

A pie chart is a circle divided into sections to represent data.

I collected data for 5 days:

Days of the week	Minutes spent on-line
M	100
T	10
W	50
TH	140
F	60

You could make a pie chart of this information.

A circle has 360 degrees so one degree represents one minute.

Days of the week Week 1	Degrees of the circle
M	100
T	10
W	50
TH	140
F	60

I used <https://www.mathsisfun.com/data/data-graph.php> to make a pie chart

The values section is a list of all the minutes for each day; the labels show the days of the week. Keep the same order for both.

You could make a pie chart for week 2

Days of the week Week 2	Minutes spent on-line
M	130
T	60
W	40
TH	90
F	40

You can use the pdf and draw it on paper if you prefer.
