

# Easter Garden Activity

Mrs Fretwell would like to invite you to take part in a creative project that all children can try, no matter what age, if you fancy the challenge!

We would like you to create an Easter or Spring time garden. Your garden should be made out of objects you can find around the house or outside in your own garden - **we're all about reusing and recycling!** Your garden must have a **theme** and you can decide whether you want your garden to be the theme of the Christian Festival of Easter or a Spring time garden showing the new life that surrounds us at this time of year.

Below are some examples and ideas that you could use for inspiration and to get those brilliant, creative brains going!

You will have until **Friday 24<sup>th</sup> April** to complete your garden craft. We ask you to photograph your finished garden and email the photo to school by this date. They will then be displayed and celebrated on the school website.

Mrs Fretwell is very excited to see what you come up with!
