

# Daily Handwriting Practice

This week our handwriting is the de join.

It is tricky to show you the correct join on the computer. Before you start, have a look in the 'Handwriting book' and find our join. Look at where it sits on the line, what size the letters are and how they are joined together.

## Monday

Write out two lines of the join. Remember to leave a finger space in between each join.

For example: de de de de de de de de de de

## Tuesday

Write out the join 5 times and make a list of 10 words with the join in them.

For example: de de de de de

describe, dear, decide, delete, demand

## Wednesday

Choose three of your words from yesterday. Write three sentences that include each of your words in them (one sentence for each word).

For example: Remember to save your work, not delete it!

## Thursday

Invent 5 new words, these words must all have our handwriting join in them.

For example: denish, decent, anzeede, gede, halopde

## Friday

Write a definition for each of your made up words.

For example: Anzeede - the colour that you get when you mix all the colours in the world together.
