You've probably all seen pictures of the beautiful rainbows that are popping up in people's homes, but do you know why they are being made? Look at this Newsround article to find out...

<https://www.bbc.co.uk/newsround/51953553>

Now for your challenge. Can you create a rainbow for your home? Be as creative as you like with it! You could paint or use coloured pens or pencils...or something more exciting! How about a collage, or a cake decoration, a Lego creation, or even some outdoor art in your garden.

We would love to see some photos of your creations so that we can put them onto the website for us all to enjoy and stay connected.
