4th July 2025

## This Week

The highlight of our week was our trip to South Angle Farm. We had a fantastic time meeting and learning about the different animals that live there. The children were super ambassadors for ESJ, listening carefully to the farm leaders and being very respectful of the animals. Make sure to look at the photos on Tapestry!

Much of our work this week has been inspired by the visit. The children have been drawing and writing about their favourite animals, making 'safety signs' to help people look after the animals, and building their own farms in the construction area. Many of the children have also been finding out about dinosaurs, building on their knowledge and interests to create fact files about different prehistoric creatures.

In maths, we have focused on counting and quick recall of our Learn-Its so that we can complete the 'Beat That' and CLIC challenges.

Our Poetry Basket this week is *Thunderstorm*.

## Messages

Please check that all belongings that come into school are clearly labelled with your child's name, thank you.
