L.O. To choose appropriate units of measure for length. To solve problems with units of length.

| 1. Put these units of meas millimetres (mm) | metres (m) | kilometres (km) | Centimetres (cm) | |
|---|------------|-----------------|------------------|----------|
| smallest | | | | largest |
| | Ţ | Ţ | | _ |
| | | | | |
| 1km = 1000m | | | 1cm = 10mm | |

2. Write at least 8 things in each column that you would measure using the different units. One has been done for you.

| millimetres (mm) | centimetres (cm) | metres (m) | kilometres (km) |
|------------------|------------------|------------|-----------------|
