

## OUTDOOR LEARNING

Look at different pictures of bears. Look at the shape of their face, ears, eyes and nose.

Use different natural resources and make a collage of a bear. It could be just the face or the face and body.. You could use pine cones, leaves, sticks, stones...

In our book: Let's Find Fred, Fred is running away from Stanley. Can you give your bear a disguise? Maybe add a hat? Or a moustache?

Take a picture of your collage and stick it into your remote learning book.

Here are some examples of collages using natural resources to give you some ideas.
