

ICT:

We are looking at different devices around the home that can be controlled by commands. For example: microwave, TV, tablets, games consoles, toys etc.

What do we tell them to do? Do we tell them to move, pause, play, heat?

How do we tell them? Do we press a button, speak, move something?

Draw a picture of a few of these items in your book and write how they work.

For example:

I press the buttons on the TV remote. It tells the TV to change the channels, pause and record,
