wb 13.7.2020

This week we would like you to focus on your times tables.

These are the times tables that you should know by the end of Year 3:

x2 x3 x4 x5 x8 x10

Start by working through the 2, 5 and 10 first. Say them forwards, say them backwards...do you also know the division facts? Think fact families.

E.g: $2 \times 3 = 6$ $3 \times 2 = 6$ $6 \div 3 = 2$ $6 \div 2 = 3$

When you are comfortable with those, move on to 3, 4 and 8.

Say them when hopping on one foot, recite them to the cat/dog/guinea pig (not the fish, they don't like it). Test your family members. Beat the clock. Time yourself...can you beat your own score?

We have given you some resources to help you...some activity sheets to help with each times table, some spicy and super spicy challenge sheets, and some colour by numbers. There are lots of resources to help you. Now practise, practise, practise!
