

# Life Cycle of a Butterfly

## Non-fiction Writing Task

Think about yesterday's learning about the 4 stages of the life cycle of a butterfly. Decide on a way to share your knowledge on paper. You could cut out the pictures at the bottom of the page, order them and write a sentence for each one or draw and label a diagram for each stage. Use arrows to show the order that things happen in. It's a little bit like a story map but instead of a story you are sharing facts!

Use the words in the box below to help you. You could also look at the life cycle diagram on yesterday's worksheet for ideas.

Remember to 'think it, say it, write it, read it' when recording your sentences. Use finger spaces between words and try to remember where to put full stops and capital letters. We look forward to reading your non-fiction work.
