WB 22nd June
Topic- Geography

During chapter 7 in The Boy Who Biked the World, Tom follows the Danube River through Europe.

He travels from Germany through Austria, Slovakia, Hungary, Serbia, Romania and Bulgaria. The Danube snakes its way through these countries until it empties into the Black Sea.

Can you find and label the countries he travels through from Germany to Bulgaria?

Can you show where the Danube is on the map? Use a blue pen to show the river's journey from Germany to the Black Sea. Label the Black Sea.
