

Learning Objective: I can add two 2-digit numbers, crossing ten.

I make or draw the two 2-digit numbers in my Place Value chart.

I add the ones first and the tens second.

I record in the column method.

Tens	Ones

$$\begin{array}{r} 23 \\ + 37 \\ \hline \hline \hline \end{array}$$

Tens	Ones

$$\begin{array}{r} 17 \\ + 48 \\ \hline \hline \hline \end{array}$$

Tens	Ones

$$\begin{array}{r} 52 \\ + 29 \\ \hline \hline \hline \end{array}$$

Tens	Ones

$$\begin{array}{r} 55 \\ + 17 \\ \hline \hline \hline \end{array}$$

<table><tr><th>Tens</th><th>Ones</th></tr><tr><td></td><td></td></tr><tr><td></td><td></td></tr><tr><td></td><td></td></tr></table>	Tens	Ones							$\begin{array}{r} 43 \\ + 38 \\ \hline \hline \hline \end{array}$
Tens	Ones
