

## Scaling Quantities 1

Read the ingredients list for cheese scones. Scale the quantities up and down to make more or less.

This makes about 10 scones.

220g self raising flour  
25g caster sugar  
50g cheese  
60g butter  
120ml milk

How much flour would I need to make 20 scones?	
How much sugar would I need to make 20 scones?	
How much cheese would I need to make 5 scones?	
I want to make 30 scones for a party. How much milk will I need?	
For the same party, how much butter will I need?	
How much cheese will I need to make 5 scones?	
If I have 60ml milk, how many scones can I make?	
If I have 100g caster sugar, how many scones can I make?	
If I have 250g cheese, how many scones can I make?	
I only want two scones, how much flour will I need?
