

Year 5 Biomes Project

Biomes are large natural areas where certain kinds of plants and animals live because of the different climates which affect the ecosystem.

 <p>Create a travel advertisement, e.g. poster or brochure, trying to encourage people to travel to your biome.</p>	<p>Write an acrostic poem to describe your biome. Present it neatly.</p> 	<p>Write an exciting story set in your chosen biome. Add illustrations.</p> 
<p>Perform an instrumental piece of music or a dance about your chosen biome.</p> 	 <p><u>Biomes</u></p>	<p>Create a biome in a (shoe) box, using different materials to show your chosen biome in detail.</p> 
<p>Make up a word problem card set for your chosen biome. Use all the operations, they don't all have to be for 1 problem! Include some multi-step problems. Work out the answer on the back of the card.</p> 	<p>Create a new animal that could have been found in your chosen biome - draw and label it to give information about its adaptation.</p> 	<p>Create a set of at least ten trump cards that show information about animals or plants living in your chosen biome.</p>
