

# Ely St. John's Primary School

## Weekly Learning – Year 3

**WB 18<sup>th</sup> May**  
**Topic- Geography**

We hope you enjoyed finding out about the layers of the rainforest. Did you make a model? Let us see them if you did!

This week it's time to find out about some of the animals that live in the different layers of the rainforest. It will help you with your English work this week too!

- 1) Look at the 'Life in the Rainforest' power point screens.
- 2) Follow the link to the website on the screens to find out about some rainforest creatures. Here's the link again in case you can't get it to work from the power point!  
<https://yppte.org.uk/factsheets/rainforest-animals/introduction>
- 3) Create your own rainforest creature! You can use the sheet provided, or you can create a larger creature design on a different piece of paper. Don't forget to:
  - Use your imagination!
  - Name your creature
  - Colour in your creature
  - Label its features
  - Make a list to say how it is suited to living in its layer of the rainforest (how it has adapted).
