

Roll a dice and put that many 'spots' on one half of the ladybird. Now count the same amount of spots onto the other half. How many altogether? Well done, you've found the double! Record it as a number sentence.

I can add doubles!

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$
